Our positioning

MMGC combines hands-on administrative capability with a broad, compliant trading platform. This allows clients to work with one responsive service provider for documentation, sourcing, coordination and delivery across varied assignments.

ABOUT MMGC

Who We Are

Founded as a practical response to the documentation, sourcing and operational needs of businesses and public-sector suppliers, MMGC General Trading provides structured support from the earliest planning stage through to final delivery. We understand that good service is measured not only by the final product, but also by accuracy, communication, turnaround time and accountability.

Our work is built around disciplined preparation, careful review, clear records and fit-for-purpose solutions. Whether preparing a bid submission, producing a professional document, troubleshooting office technology, sourcing equipment or coordinating field services, MMGC approaches each assignment with the same focus on quality and client confidence.

Vision

To become a trusted Lesotho enterprise recognised for reliable business support, responsible trading and practical solutions that help clients operate and compete effectively.

Mission

To deliver responsive, accurate and value-conscious services through professional administration, dependable sourcing, technical capability and accountable execution.

Our values

- Integrity - honest communication, responsible handling of information and transparent service delivery.
- Quality - careful preparation, thorough checking and professional presentation.
- Reliability - realistic commitments, timely updates and dependable follow-through.
- Client focus - solutions shaped around the client's actual need, budget and deadline.
- Continuous improvement - learning from every assignment and strengthening systems over time.

CORE SERVICE 01

Consultancy & Tender Support

Clear documentation and disciplined bid preparation can be the difference between participation and disqualification.

MMGC supports businesses, contractors and suppliers with the administrative and presentation requirements of procurement opportunities. The service is designed to reduce omissions, improve clarity and help clients submit organised, responsive documents.

Services include

- Tender and request-for-quotation document review.
- Bid compliance checklists and submission planning.
- Preparation and formatting of technical proposals, methodologies and company information.
- Compilation, indexing, pagination and orderly arrangement of supporting documents.
- Quotation, invoice, letter, schedule and business-document preparation.
- Printing, scanning, binding and submission-pack production.
- Tender calendar support and deadline coordination.
- Administrative consulting and general business-support services.

Our working method

PHASE	FOCUS	OUTPUT
1. Understand	Confirm the requirement, deadline and submission method.	Confirmed brief
2. Structure	Build a checklist and organise mandatory information.	Compliance structure
3. Produce	Draft, format, print and compile the required package.	Submission-ready file
4. Verify	Review completeness, consistency, signatures and packaging.	Final quality check

CORE SERVICE 02

Printing & Document Production

MMGC provides document-production support for offices, projects, tender submissions and everyday business administration. Our focus is on producing clean, legible and properly organised records that are ready for use, filing or submission.

Document services

- Black-and-white and colour printing.
- Photocopying and document reproduction.
- Scanning, digitisation and electronic file organisation.
- Typing, editing, layout and professional formatting.
- Binding, covers, dividers, indexing and document assembly.
- Tender packs, contracts, annexures, reports, profiles, invoices and quotations.
- PDF preparation, merging, page ordering and print-readiness checks.

Quality control

Page sequence, legibility, margins, orientation, completeness and final presentation are checked before handover.

Confidential handling

Client documents are handled with discretion and shared only through agreed channels.

CORE SERVICE 03

Information Technology Services

Practical technology support for reliable day-to-day office operations.

MMGC offers computer and office-technology services aligned with the needs of small businesses, institutions and project teams. Support may be delivered as a once-off intervention or as part of a wider supply and maintenance assignment.

Capability areas

- Desktop and laptop setup, configuration and basic troubleshooting.
- Software installation, updates and routine optimisation.
- Printer setup, maintenance coordination and consumables support.
- Basic network, connectivity and workstation support.
- User assistance, file management, backup guidance and digital organisation.
- Supply of computers, accessories, peripherals and selected office equipment.
- Assessment of client requirements and preparation of fit-for-purpose technical specifications.

Service approach

We begin with the operational need, identify the most practical solution, explain the available options and document the work performed. Where specialist repair or manufacturer intervention is required, MMGC can coordinate sourcing and service arrangements.

CORE SERVICE 04

General Trading & Procurement

As a general trader, MMGC sources and supplies suitable products for offices, institutions, projects and households. Procurement is guided by the client specification, required quality level, availability, delivery location and budget.

Supply categories

Office & technology

Computers, printers, accessories, cartridges, stationery, communication items and selected office equipment.

Electrical & household

Electrical household appliances, furniture, lighting equipment and other household articles.

General goods

Consumables, cleaning materials, project supplies and other new goods sourced against specification.

Medical & hygiene

Permitted pharmaceutical, medical, cosmetic, toilet and hygiene goods sourced from appropriate suppliers.

Procurement controls

- Specification confirmation before purchase.
- Supplier and product comparison where appropriate.
- Clear quotation and commercial terms.
- Inspection of quantity and visible condition.
- Delivery records and supporting documentation.
- Responsive communication when substitutions or lead-time changes arise.

OPERATIONAL CAPABILITY

Construction & Technical Field Services

Coordinated field support for building, specialised works, water-related activities and site requirements.

MMGC is registered for construction of buildings, mechanical engineering activities, specialised construction, water supply and treatment activities, stone-related operations, remediation and waste-management services. Assignments are accepted according to scope, competence, statutory requirements and the availability of suitable personnel, subcontractors and equipment.

Capability areas

- Building construction, repairs and general maintenance support.
- Specialised construction activities and project coordination.
- Mechanical and installation-related support.
- Water-supply, treatment and associated support activities.
- Excavation, site preparation and material coordination.
- Blasting and crushing of stone, subject to permits, specialist controls and project requirements.
- Remediation and other waste-management support services.

Responsible delivery

Before mobilisation, MMGC confirms the work scope, site conditions, safety requirements, access arrangements, programme, materials, supervision and reporting obligations. Regulated or high-risk activities are undertaken only with the required competent specialists, approvals and controls.

OPERATIONAL CAPABILITY

Cleaning & Facility Support

MMGC provides building and industrial cleaning support for offices, facilities, commercial spaces and project sites. Services are planned around the area, surface types, occupancy, access, hygiene requirements and client schedule.

Typical services

- Routine office and facility cleaning.
- Deep cleaning and post-construction cleaning.
- Floor, surface, washroom and common-area cleaning.
- Window and external-surface cleaning arrangements.
- Industrial and project-site cleaning support.
- Supply of cleaning consumables and hygiene materials.
- Waste handling and orderly removal in accordance with site procedures.

Safety first

Task-specific PPE, chemical handling, signage, supervision and access controls are considered during planning.

Quality assurance

Checklists, supervisor review and client feedback support consistent service standards.

SERVICE MODEL

How We Deliver

One accountable process from enquiry to close-out.

01 Enquiry	We receive the brief, specification, quantities, location and deadline.
02 Assessment	We clarify requirements, risks, dependencies and the most suitable approach.
03 Quotation	We provide scope, pricing, commercial terms and expected turnaround.
04 Mobilisation	We arrange people, materials, equipment, documents and logistics.
05 Delivery	We execute the assignment with progress communication and quality checks.
06 Close-out	We hand over outputs, records and any agreed recommendations or after-service support.

Our commitment to clients

- Professional and respectful communication.
- Accurate documentation and clear records.
- Realistic timelines and early notice of changes.
- Value-conscious sourcing without compromising mandatory specifications.
- Confidential handling of client information.
- Continuous improvement based on feedback and assignment outcomes.
